[International Health Regulations](http://www.who.int/ihr/en/)

<http://www.who.int/ihr/en/>

Latest edition of the public health regulations that are legally binding on WHO Member States.

[The International Classification of Diseases](http://www.who.int/classifications/icd/en/)

<http://www.who.int/classifications/icd/en/>

The international standard diagnostic classification for epidemiological and health management purposes.

[International Pharmacopoeia](#)

Collection of quality specifications for pharmaceutical substances and dosage forms, for reference or adaptation by WHO Member States.

## Reports

The GHO issues analytical reports on the current situation and trends for priority health issues. A key output of the GHO is the annual publication World Health Statistics, which compiles statistics for key health indicators on an annual basis. The World Health Statistics also include a brief report on annual progress towards the health-related MDGs. In addition, the GHO provides analytical reports on cross-cutting topics such as the report on women and health and burden of disease. Lastly, the GHO provides the link to specific disease or programme reports with a strong analytical component.

[World Health Statistics](http://www.who.int/gho/publications/world_health_statistics/en/)

[http://www.who.int/gho/publications/world\\_health\\_statistics/en/](http://www.who.int/gho/publications/world_health_statistics/en/)

WHO's annual compilation of data from its 194 Member States, including a summary of progress towards the health-related Millennium Development Goals and Targets.

[Health in 2015: from MDGs to SDGs](http://www.who.int/gho/publications/mdgs-sdgs/en/)

<http://www.who.int/gho/publications/mdgs-sdgs/en/>

WHO report looking back 15 years at the trends and positive forces during the MDG era and assessing the main challenges that will affect health in the coming 15 years.

[Tracking universal health coverage: First global monitoring report](http://www.who.int/healthinfo/universal_health_coverage/report/2015/en/)

[http://www.who.int/healthinfo/universal\\_health\\_coverage/report/2015/en/](http://www.who.int/healthinfo/universal_health_coverage/report/2015/en/)

Presents the data available to monitor universal health coverage, including coverage of selected interventions and financial protection.

[State of inequality: Reproductive, maternal, newborn and child health](http://www.who.int/gho/health_equity/report_2015/en/)

[http://www.who.int/gho/health\\_equity/report\\_2015/en/](http://www.who.int/gho/health_equity/report_2015/en/)

Demonstrates best practices in reporting the results of health inequality monitoring, and introduces innovative ways for audiences to explore inequality data.

[Women and health: today's evidence tomorrow's agenda](http://www.who.int/gender-equity-rights/en/)

<http://www.who.int/gender-equity-rights/en/>

Comprehensive evidence on the specific health challenges and needs of women across the life course.

[Global health risks](http://www.who.int/healthinfo/global_burden_disease/global_health_risks/en/)

[http://www.who.int/healthinfo/global\\_burden\\_disease/global\\_health\\_risks/en/](http://www.who.int/healthinfo/global_burden_disease/global_health_risks/en/)

Comprehensive, consistent and comparable statistics and information on health risks at global and regional levels.

[The global burden of disease: 2004 update](http://www.who.int/healthinfo/global_burden_disease/2004_report_update/en/)

[http://www.who.int/healthinfo/global\\_burden\\_disease/2004\\_report\\_update/en/](http://www.who.int/healthinfo/global_burden_disease/2004_report_update/en/)

Comprehensive, consistent and comparable information on the burden of diseases and injuries at global and regional levels.

**Reports**

[WHO Technical Report Series \(TRS\)](#)

<http://www.who.int/foodsafety/publications/jecfa-reports/en/>

These reports, published by the World Health Organization, contain concise toxicological evaluations and the chemical and analytical aspects of each substance reviewed by JECFA, as well as information on the intake assessment. Reports reflect the agreed view of the Committee as a whole and describe the basis for their conclusions. They are available in PDF format, and the 1st through 36th reports are also available in French and Spanish.

**Toxicological Monographs**

[WHO Food Additive Series \(FAS\)](#)

<http://www.who.int/foodsafety/publications/monographs/en/>

These monographs, published by the World Health Organization, contain detailed descriptions of the biological and toxicological data considered in the evaluation, as well as the intake assessment. The 1st, 4th, 5th, 6th, 8th, 10th, and 12th through 52nd series of FAS monographs are available in HTML format. WHO monographs beginning with the 51st series are also available in PDF format.
